

# CostSaving ABI3500

**Lower the running costs of your DNA sequencer**

**ABI 3500 /  
ABI 3500xl**

**Upgrade your system to Windows 10 and save on reagents at the same time!**

## OUR OFFER INCLUDES

- » New data analysis computer: Windows 10 license, installation of Data Collection and analysis software
- » Preventive maintenance of your instrument including the operational and process qualification (OQ/PQ) and instrument performance verification (IPV)
- » User training focused on how to minimize running costs of DNA sequencing and fragment analysis
- » Labour and travel costs of service engineer

**NO NEED TO BUY ADDITIONAL SOFTWARE LICENSES,  
KEEP ON USING YOUR CURRENT ONES!**

The offer is valid for ABI 3500/3500xl sequencers only, with DataCollection v1.0 or 2.0 and includes delivery of the new data analysis PC with Windows 10 and installation of data collection and analysis software (DataCollection 3.1 and any version of Sequencing Analysis, GeneMapper, SeqScape / Variant Reporter). This new PC is put into operation during first regular inspection and is covered by 2-years warranty. Apart from Windows 10 this offer does not cover any additional software licenses.
